Choosing between Capitalists, Fascists, Communists, Fanatics, business Religions, Family, green democracy party, leftwing, rightwing, politicians, underground, media, grampies & followers, individualists is a tough job and it is really stressing Vircingetoris's brain.

He sees geometrical configurations on his computer screen of organisations trying to pyradimmer, yet they are in his maze.

He sees big phasers, untouchables thinking about their moves, their take overs.

He pauses, re-calculates, strikes.

You can poison any number op people at alllevels easily but then you are a cowardlylyingspy.

The only reduction is to strike at keypoints on the grid and for the mercy of the gods & goddesses in their karma acta's individualcombat.
