203 Top 20 Ways To Kill IT ad Humanity

- 1) Simply delete the default or index file at off hours by using weak usernames ad passwords and weak FTP ad poor software. 
- 2) Turn the whole server off or on with a smart bug or fly which simply zooms in ad uses the button...
- 3) Spy on Noobies using <sup>unencrypted</sup> wireless Brain-to-wave technology; there alone of the possible variations to pull the one off HOLY GRUESOME!!

- 4) Make fun of their whole username ad password system, made in the early 1970's, by ripping all workstations ad servers who do not update their password each week...
- 5) Take advantage of ALL the incorrect default settings in ALL software.
- 6) Hit the most vulnerable first install ad update moments... LOL, GG, WTF.

Autobiography, Confessions of... ?  
 Ever since 1997-98 I have been in Informatica Technology. I started S:/voelingo.ca in 1997 and worked my way through one bad luck job after another. Even starting IT jobs I have had here in The Hague, Netherlands has failed for one stupid reason or another. Despite this I have acquired a MSc diploma and became a Network Engineer, web designer/Developer and 3D Game Developer. I have made 17 websites, 2 ASP web Applications (a forum and CMS) & 3D Levels and I have 3.5 propedensses: Philosophy, Psychology, IT (Informatica) and half a year of Nederlandse. So why have only been on welfare all of 10 years here? Why has each salary based job failed and mostly in the first month? The only answer and you will agree when you read this whole confession of mine is two reasons: A. In over-populated Netherlands there is cut-throat competition. B. My distich Pi (Gaukthe) was Colourswiss: der koninkrijk der Nederlanden... → der PS-life

97 I got, partner and next I got divorced, I had 2 each spurs, is let intervene relationship, plans are made to go to University but v. beide, see details how our relationship gets broken up in the summer.  
 97. 1st attempt to study Nederlandse, I get put in wrong class, is extremely boring, only foreigners, I go to Land conference to attend.  
 97. I get first Poutine 133142 capite.  
 97. I register S:/voelingo.ca  
 97. I find out a too much answering  
 - OKT approx. I get committed to being wrongfully for 6 months! I only hospital raised to golf club and did not use it.  
 I got a week. see you. large who was more concerned about the other side of my life. The judge we extended to see the signed by District to see.  
 98. In May/June I finally get released for good behavior all cause my mother believes it is impossible to get your spy living space from such an institution. Allowance: 400 g. wills per month and No welfare, like a patient is a criminal, or such

ad to total ineffectivity of content filters or browsers to protect your kid from looking slip up on Internet without causing the Big Brother effect and killing everybody's rights + see Filter Guide as the free show in Part 10 (Numbers Uno and Direct Earth) is the apparent and actual reality of the world and actual reality of the free show (my hypothesis of the free show (my thesis, he) 'telepathic like' and 'chat-like'. Somehow we are actually using Brain-to-brain technology. The chance of it being truly parasitoid is about 1 in 100,000,000. I can communicate in a telepathic like way with it over moving my lips. My objection is to abusive and negative content and the dark messages and invasion of my privacy: I am Kyle Lance Proudfoot and live at Hendrik Zwaardereconsstraat 125, The Hague, Netherlands.

*[Faint, mostly illegible handwritten notes on a second page, possibly bleed-through or a separate page.]*

In 2007 I got 120,000+ hits at both \$/use/ingv.com and Tox-machine.com. I also received an additional 10-20,000 hits at my EU Portal planesofexistence.com. The Freshhouse is a domain alias at planesofexistence.com. I also received since Jan 2008 continued, plentiful and daily hits at ad websites. So, it is NOT POSSIBLE that it flat-lined from 01-15 right after the move of the server. I consider it no less than sabotage of the shell, the server and/or a 5-10 min personal attack.

• Suspect fact

What remains inexplicable, due to the libealged dntel NetHund number broadcasting 1405, anyone read their parakeet can start a radio station on ETR and I think that therefore no attempt made to physically locate the culprit of said abusive conduct.

• Suspect Incident #1:  
I want the first to register the Freshhouse in the history of humanity and if it took 2 months to fuck, move it to a new hosting provider because of a spelling mistake of my email address at a whois register. I did not and could not have made the spelling mistake, since I had no access to that location. (I have since the experienced register)

• Suspect Incident #2: After complaining about wanting to see more shells and fully updating planesofexistence with a watermark cross-browser Flash, objects I am told the server had to be moved. From 01 April 2008 and 15 April 2008 in shells

F L A T - L I N E D

There are 2D LIES!

STOP HARASSING ME!

OR DIE!!!

Holy Gruesome, Spy Kill's 11.11.11

Because of my father I was a  
 Vigil Vigilante from 1988 to 2000.  
 Also because of Mom, Environmentalists  
 and Health history. My experience  
 in Europe has learned me that these  
 reasons are real. There is unbridled  
 greed and greed of wealth - western  
 world. R. greed of Don's corruption  
 has been part of Nixon's evolution  
 since the beginning of the C. See Corrupties.

My father convinced my brother  
 to do above and did not tell me  
 when she died - I had 3 years later  
 AND I was left out of her obituary  
 in newspapers AND he found love.  
 Also, when contact was in 2007  
 he refused to give the details of my  
 Uncle's to me and at least estimated  
 Uncle Paul against me. My father  
 had also had a long stand's argument  
 non-communicate with my Uncle's for  
 those reasons and others. I hope to have  
 April 2008 set a meeting in Florida

Father refuses to help me on  
 case and since 2001 after father's  
 from more back to Canada, etc. in blame?  
 how far such is a small - even part  
 a restaurant order for 1 'Bifell' and  
 in lower. I only could be with to be (Annie)  
 a 'Bifell'. My father blames for an  
 lifestyle a habit when in fact he refused  
 to admit he did 10x as much  
 drugs as alcohol - to 80's or 70's  
 with similar violent and toward behavior  
 patterns - (1st drinks of greed, etc  
 positive) also, I only used beer,  
 wine marijuana and drugs during  
 father's and LSD, XTC, cocaine marijuana  
 and had alcohol... This project of  
 has and no is therefore not correct and  
 false. At the end, I only experienced  
 or copy this as a teenager with his  
 drug abuse. He had a small head down  
 and after the middle of physical disorders  
 which he claims to have cured with  
 me. At this, possible cause, (psychological)  
 emotional damage with a minor dysfunction.  
 at Virgin (see previous)

So, to repeat, where is the microphone? In case, there is a question as to motivation for writing this, or the possible titles to give it, it is not for revenge or suicide - both are low-life primitive behavior and cowardly, being killing another of which I attach no value to... However, ALWAYS got even, 'My wounds and ailments are for me and anger have been used against me by anyone: associates, friends, family and myself. I wanted so long to publish that is also why I wrote this. (16-03-2008) Now, in mood of Pri 2008

NEVER get angry!  
 NEVER get angry!  
 NEVER get angry!

I am receiving a new timeframe for the continued voice which I love. There are primary 3 voices beside my own. The 3 suspects include myself since I am telepathic, project my voice or sound effect into them - and objects, which are susceptible to resonance and interference, without the usage of device, microphone and/or headphones are Mon, Mie Hypic and 2-bit Sweet Last Forever IE Linger's in Part IV of The Free Show IE Now, also many others...

In Summer 2004 after the roof is replaced at my address Hudrik Zunderse 125 I start suffering voice disturbances - now in April 2008 it appears to be a wireless spy network or a pirate amateur broadcast system.

Nu bij de huizen achter ons water pondje hebben ze nog meer bomen omgehakt.  
Deze keer ontmoete ik een vrouw en de gemeente heeft haar leugens verteld over schimmel op en/of onder de boomschors!  
Kijk zelf maar aan de foto bijlages. Er is echter helemaal niks mis met de strompen.  
Ik vind dit eigenlijk nu zelfs persoonlijk gericht want ik loop daardoor bijna elke andere dag.  
Nu dat ze al met die schurken bij PVV en CDA, Groenlinks hebben helemaal afgemaakt hebben ze ook blijkaar volle autoriteit om alles om te hakken.  
Ik wil nu ook bezwaar maken tegen de 'belanghebbende' regel/wet. Als wij hier, daarachter, bij mijn Moeder en ook andere locaties zoals die verschikkelijke ANWB gecorrupteerde zaak ELKE DAG langs lopen dan zijn wij toch wel belanghebbende?  
Zijn ze allemaal stapelgek geworden?

Hoe staat het met mijn Draaglast?

Je ondervindt op dit moment een tamelijk hoge draaglast, veel tijd en energie in piekeren over je problemen, spiraal te doorbreken. Je score is als volgt opgebouwd:

Je maakt je zorgen over zorgen over je gezondheid, het juist niet hebben van werk, iets ergs dat onlangs dat je is overkomen in het verleden. De youplus coach kijkt.

Je hebt er behoorlijk last van hoe je je op dit moment raden je aan verder te praten met je youplus coach

3 Draagkracht

Wat is Draagkracht?

Je draagkracht zijn alle energiebronnen die je hebt in alle energievragers in je leven – je draaglast is een optimistische levenshouding, je flexibiliteit die zich buiten je bevindt is de steun van je familie

I go for what did they do so but for my Mother's Japanese Bunka Shishu Art. - And because it was a hot summer's night and I have Chronic Acute Bronchitis for about a decade I left my back balcony door open for the air and someone broke in and knocked over my Celtic books amongst other things and the Police did not see the corner.

Backstabbing Bitch

Inspired by Aspasia Asbestos (Nickname) who gave me a yeast infection for 01 year and scar tissue to date.

Rephrase: You're a backstabbing bitch, you were only along for the hitch.

1. You think you're so much

And all of such,

Cause you're so rich,

It's more like you got a suck stitch!

- Refrain

2. I met you at a sleezy dance bar

And you thought I was a star,

Set me up like another jug or jar,

A year later you left me with a dick star!

- Refrain

3. You're a Goth who did me in

In more than one way druggin' 'n junkin',

What was the price for Initiation,

With so-called Immortality when it's only dyin'!

- Refrain

4. Since then it's been nothin' but yeast infection

And all your Lies And Impersonation's,

All your false accusations, I even gave it to the next one,

In a nightmare camping tent!

- Refrain

 07 Demo?

5. Walkin' 'n bikin' through the planes  
 Of all our past tears and pains of existences,  
 All our future hopes and promised gains,  
 Find your own lands and homes, and it starts all over again...

6. I'm stuck in a Time Loop 'n not escapin'  
 For how do I free myself in, One Big Reality,  
 If not existin' then, no self-suicidal action,  
 Allowin' for Nothing...

7. No! That cannot be, we'll continue on,  
 Forever on in Timelines of Infinity's,  
 Presently our sufferin' Soul's, Spirit's, Mind's and Body's,  
 Stuck in Armageddon's of perpetualities...

- Refrain 05 BOO!  
 - Spoken Word BOOM!
